EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Justine J. Oliver on August 5, 2005.

The application has been amended as follows:

IN THE CLAIMS:

Claim 34:

- Line 1, changed "30" to --27--.

2. The following is an examiner's statement of reasons for allowance: Claim 27 is patentable over the prior art patents and printed publications because of the specific configuration of the light emitting source assembly used in the multi-beam scanning apparatus, wherein the laser light source is fixed to a holder, which has a reference portion such that a hypothetical straight line connecting the plural light emission points is inclined with respect to the reference portion so as to have an inclination angle equal to or close to a predetermined angle, and wherein said holder holding said laser light source is fixed to the wall of the housing after the inclination angle of the hypothetical straight line is finally adjusted by rotating said holder. The combined limitations as claimed are not taught by the prior art of record alone or in combination.

Claims 29 and 32-36 are allowed because they are directly dependent from claim 27 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai C. Pham whose telephone number is (571) 272-2260. The examiner can normally be reached on M-F 8:30AM - 5:30PM.
